

Additional File 2. Affymetrix Whole-Genome Human SNP6.0 CNV analysis of a) *MYT1L* gene at chromosome 2p25.3, and b) *NRXN1* at 2p16.3, indicating that all subjects have 2 copies of both genes, including the patient (purple), her father (blue), and her mother (green). Copy number range is indicated on left side (from 0 to 4), and copy number throughout the region is shown by a heavy colored horizontal line.

a) *MYT1L*

b) *NRXN1*
